THE FORTIETH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

ST. LUKE'S HOSPITAL,

NEW YORK,

FROM

SEPTEMBER 30, 1897, TO SEPTEMBER 30, 1898.

The Hospital is seriously retarded in its development by lack of sufficient income.

The buildings already erected are well adapted to their use and are equipped with every needed appliance. The reputation of the institution for professional skill, and for kind and considerate care of its patients, brings a constantly increasing volume of work, but, although the Hospital is managed with as great economy as is consistent with proper care of the patients, there is still a difference of $64,373.07 between the income and the expenses of the year.

This situation will be substantially relieved when the remaining lots of the old Hospital site on Fifth Avenue and Fifty-fifth Street, valued at $700,000, are sold, and when certain pending legacies estimated at $300,000 are paid. But even with these additions to the income-producing capital, from $20,000 to $25,000 more of income than can be expected from these, and present sources of revenue will be needed to support the institution on its present yearly basis of expenditure.

To enable the Hospital to maintain its present position among the charities of New York, and to meet the increasing demands

of the growing population of this city, large benefactions are necessary.

Unless additional provision is made by the friends of the institution toward its financial support, the Managers will be compelled to curtail its work, as the disbursements for charitable relief of the sick and suffering poor cannot be allowed so largely to exceed the yearly receipts.

For its further development, the most pressing want is the building of a special pavilion for the consumptive patients, so that the wards now occupied by sixty of these patients in our present buildings, may be released for patients afflicted with acute medical and surgical diseases, and increased income to support this enlarged service.

The pathological work, see page 97 is now temporarily provided for by a union of interests in this regard with Columbia University. The Management call attention, however, to their appeal in the report of 1896, for an endowment of this Department with at least $200,000.

The decision of the Court of Appeals in the case of Berenbroick *vs.* St. Luke's Hospital has finally established beyond cavil, the right of the Hospital to sell its former site on Fifth avenue.

Experience has fully demonstrated, that it is cheaper and better to utilize existing well-managed institutions, rather than to build new ones, for, to say nothing of the fact that the older institutions are better equipped for the work, the per capita cost in a hospital decreases, as the number of patients increase.

The work of the Hospital for the past year is given in detail in the report of the Pastor and Superintendent on page 35. It shows an increase of 212 patients, and of 3,938 of days of hospital treatment, over the previous year. For this increase, the unusual conditions following the late war with Spain, and the requirements of the soldiers returning sick and wounded from the various camps, is to some degree responsible.

On May 16, 1898, the Managers opened and set aside a ward of twenty-five beds for the use of members of the Army and Navy

of the United States. During June and July, a few availed themselves of this provision, but toward the latter part of August, they came in such numbers, and most of them so critically ill, that five additional beds were placed in this ward, and preference was given to soldiers over other applicants, for treatment in the other wards.

To September 30th, ninety-five such soldiers were treated, and 1,279 days of hospital treatment were given to their care. Besides this number, several officers and other soldiers were treated in wards and private rooms, and paid the usual rates for board, but the Attending Physicians and Surgeons relinquished the fee they were entitled to charge those of them who occupied private rooms.

The following changes have taken place in the Attending and Consulting Staff during the year:

Dr. A. Brayton Ball, who had served the Hospital for nearly sixteen years, resigned as Attending Physician, and was appointed Consulting Physician.

Dr. Francis P. Kinnicutt, formerly Attending Physician, and since April 27, 1896, Attending Physician in charge of Phthisical Department, was made Consulting Physician for Phthisical Patients.

Dr. George A. Spalding, since March 30, 1896, Ad Interim Attending Physician, was promoted to the office of Attending Physician.

Drs. William C. Campbell and Charles F. Collins, Assistants to the Attending Physician to Phthisical Patients, were promoted to the offices of Attending Physicians to Phthisical Department.

Dr. Francis C. Wood was appointed Pathologist.

Dr. T. Mitchell Prudden was appointed Consulting Pathologist.

In the Out-Patient Department Dr. Joseph A. Blake resigned as Attending Surgeon, and Dr. Louis I. Mason was appointed Surgeon-in-Chief.

Dr. George A. Spalding resigned as Attending Physician, and Dr. Austin W. Hollis was appointed Physician-in-Chief.

Dr. T. A. Kenyon was appointed Assistant Surgeon, and Dr. W. S. Thomas was granted a prolonged leave of absence that he might enter the U. S. Navy as Assistant Surgeon.

As heretofore, the services of the Attending Hospital Staff of eminent Physicians and Surgeons have been rendered gratuitously, except in the case of patients occupying private rooms, and able to pay.

So rapid has been the increase of the surgical work of the institution (1,068 operations having been performed during the past year) that, upon the recommendation of the Medical Board, two members have been added to the House Staff, and the surgical service has been divided into two separate departments, named respectively Division A, and Division B. This arrangement gives satisfaction, as it prevents confusion, and gives to each of the Attending Surgeons his own staff.

These various changes rendered necessary corresponding amendments to the house regulations. These rules in their entirety were thoroughly discussed by Committees of the Medical Board and the Executive Committee, and, as amended, were finally adopted and ordered published by the Board of Managers on December 23, 1897.

The gifts received during the year are as follows:

One bed endowed in perpetuity by Mrs. Helen Frances Harbeck in memory of her husband, William H. Harbeck,	$5,000 00
One bed endowed in perpetuity by Mr. and Mrs. George H. Byrd in memory of their son, Alfred Henry Byrd, given on the 32d anniversary of his birth,	5,000 00
One bed endowed in perpetuity by Mrs. Mary A. Woodcock in memory of her father, William P. Woodcock,	5,000 00
One bed endowed in perpetuity by Mrs. Clinton Ogilvie in memory of her mother, Mrs. Jarvis Slade, to be known as "The Hannah Thomas Slade" memorial bed,	5,000 00
One bed endowed in perpetuity by Mr. Henry Parish, in memory of his wife, Maria Brinkerhoff Parish,	5,000 00
One bed endowed in perpetuity by Mrs. Kathrine Sergeant Cram,	5,000 00
One bed, No. 62, endowed by House of Rest for Consumptives, under contract of June 1, 1891,	7,500

Final payment for endowment of bed under the will of the late William Smith Brown	2,500 00
From Executors of the late Julia E. Brown, legacy,	5,000 00
From Executors of the late Mary E. Edson, on account of legacy	3,333 33
From Executors of the late Ellen Stockton, legacy,	952 50
From Executors of the late Benjamin S. Lee, additional payment on account of legacy,	115 00

Expenditures amounting to $6,610.26, which are included in the list of "Hospital expenses in full for this year," page —, were incurred toward finishing the buildings already erected, and are therefore not properly chargeable in estimating the per capita per diem cost of each patient.

The wonderful advances made in recent years in surgery have been rendered possible by anæsthesia, by the aseptic precautions with which each operation is now accompanied, and by the skilled scientific treatment which each patient subsequently receives. Many lives are thereby saved, the pain of operation is annihilated, the subsequent distress is much diminished, and the duration of each patient's illness and confinement in the hospital is greatly shortened. But all these modern improvements involve largely increased expenditure. The sum of $7.00 per week, adopted in 1867, as sufficient to cover the per capita cost to the Hospital of each ward patient, is now entirely insufficient for that purpose. During the thirty-one years which have elapsed since that date, greatly improved facilities have been provided by the hospital, in surgery, medicine and in scientific nursing. These things immediately benefit the patients, and increase their prospects of recovery, but they have nearly doubled the cost.

In view of the following facts:

1st. That the charity work of the Hospital for the support of which the institution appeals to the public, is steadily increasing in volume, and that it now constitutes about 70 per cent. of its entire work in the wards.

2d. That no suitable applicant for admission is ever refused treatment from lack of ability to pay for it.

3d. That hospitals are more used than formerly they were by other patients, who are able and willing to refund to the Hospital its actual expenditure in their behalf; and

4th. That the receipts of less than this actual expenditure from patients who suppose that they are paying for it in full, places both them and the Hospital in a false position; it has seemed to the Managers only just and right to raise the rates for paying ward patients from $7.00 to $10.50 per week in the adult wards, and from $4.00 to $6.00 per week in the children's wards. The House Officers are authorized, as heretofore, to accept fractions of these amounts, or to receive patients for free treatment, as the financial condition of each applicant renders necessary.

The Managers present clearly and frankly in this report the actual position and needs of the institution, in order to correct the erroneous impression that St. Luke's Hospital is amply endowed and supported. *Its growth must be checked, and its large and beneficent work restricted, unless there soon be large additions to its income-producing capital.*

For forty years this Hospital has quietly and effectively ministered to the sick poor of this metropolis, in His Name, who "doeth all things well."

It has worked its way, by the kind and quality of its service, into the front rank of the city's institutions, and now has, as we believe, the confidence and affection of many people. This has been practically shown, by the steady flow of gifts for the support of this Hospital, for which the Managers are deeply grateful, both to the generous donors, and to that Inspiring Spirit from "whom all good works do proceed."

They feel assured that if the wants of the institution are known, its necessities will be abundantly supplied.

GEORGE MACCULLOCH MILLER,
President.

HOFFMAN MILLER,
Secretary.

Special Appeal

FOR

Larger Endowment of St. Luke's.

For continuing the work on the scale of the last year there is needed at once an addition of at least

FIVE HUNDRED THOUSAND DOLLARS

TO THE

GENERAL ENDOWMENT FUND.

LARGE BENEFACTIONS ALSO ARE NEEDED

For the Endowment of the Pathological Department.
For Building the Pavilion for Consumptive Patients.
For Building the Pavilion for Private Patients.

CENTURY FUND.

The "Century Fund" of St. Luke's was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons of $100 each toward supplying the difference between the annual expenses of the Hospital and its income. For a time this Century Fund was maintained at its full number and amount, but through the death of original subscribers, and from an impression which is abroad that St. Luke's income from endowment having increased, there is not the same need of these contributions, the number of subscribers has gradually diminished. The income, however, has not grown as fast as the expenses; partly because of the steady increase in the proportion of patients with acute diseases and of applicants for free treatment, partly because the wards of the Hospital which are opened for patients are kept more continuously full.

The work of the Hospital for the past year is found on page 35. The relation of the receipts to the expenditures is found in the Treasurer's Report, page 16.

The number of subscribers last year was 88.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

REPORT OF THE EXECUTIVE COMMITTEE

ON THE

TRAINING SCHOOL FOR NURSES.

During the past year, the Training School has made marked progress toward perfecting its organization, improving its discipline, and increasing its efficiency.

The enlarged opportunities for education and experience afforded by lengthening the course from two to three years, have been taken full advantage of, and the increasing strictness of requirements, thus made possible in the class recitations, and in the ward service; but above all, the esprit de corps of the nursing staff itself, which will not rest satisfied with anything less than the highest grade of work, have combined to secure the desired result.

We think it can be claimed, that the varied service of the different departments is evenly shared by all the pupils of the School, and that they are impartially treated.

A service-book is kept, in which is registered the place and kind of service rendered by each pupil and probationer, during each day of the three years' course.

The Directress of Nurses in her daily rounds becomes practically acquainted with the spirit, capabilities and quality of service of each nurse. To her, the Head Nurses of Wards make their monthly written reports, and she, in turn, makes her quarterly report to the Pastor and Superintendent, as to each pupil of the School.

The marks given in examinations by the Medical Board are a fair test of scholarship; these other reports are a test of work. Thus each pupil makes daily her own record, by which she must stand or fall.

The position of Head Nurses of Wards will hereafter be filled, as far as practicable, by senior nurses (who have shown special aptitude for this promotion) during the last six months of their course. Such pupils will wear a special badge to designate their position, and satisfactory service of this kind will be mentioned on the diplomas, and will place the graduate in the line of advancement, or recommendation for institutional work.

During the past few months this School has been subjected to a severe test of its organization and efficiency. Mrs. Quintard, the Directress of Nurses (to whose wise leadership this School is much indebted), was called by the Government to organize and direct the nursing at Camp Wikoff, Montauk Point, on behalf of the Red Cross Society. She was granted leave of absence to enable her to undertake this self-sacrificing and patriotic duty, and entered on this service on August 16, 1898. Working as she did, not in a critical, but helpful spirit, she received cordial coöperation from all the officers of the post, and in a quiet and tactful way organized her nursing staff, and overcame the manifold difficulties of her position.

During her absence, the numerous applications made to St. Luke's Hospital from soldiers returning sick or wounded from the various camps, not only filled full the ward specially opened for their use, but crowded other wards to overflowing. At one time over fifty cases of typhoid fever were under treatment here.

The Assistant Directress of Nurses, Miss Mitchell, proved her competency to meet the unusual requirements, and with cheerfulness and alacrity, as well as skill, the whole nursing staff ably supported the doctors in meeting the emergency.

On June 6th, the first class of nurses which had passed through the full three years' service, graduated. This class has the honorable distinction of preserving its original number intact from the beginning to the end of its course, and also of securing for each member of the class the highest possible marks in their final theoretical and practical examinations by a Committee of the Medical Board.

The School now numbers 67 pupils, and 13 probationers, while the names of 33 accepted candidates are on "the waiting list" awaiting call for duty.

The following outline of class work for the three years' course is established :

Two months' probation :
Domville's Manual.

A copy of Dr. Ball's lecture on the "Duties and Conduct of Nurses in Private Nursing" will be given to each graduate.

Owing to the change from a two to a three years' course, but 5 nurses have graduated the past year. These, however, are well equipped for usefulness in their calling, and at once found lucrative employment.

During the year one of the pupils, Mrs. Rose B. Humphrey, died.

She entered the school under the shadow of a great personal bereavement, and devoted herself with sympathy and self-forgetful zeal to ministering to our sick patients, many of whom she strengthened and comforted, with the comfort wherewith she herself was comforted from above. She was not physically strong, and she finally succumbed to a disease, the seeds of which she evidently brought with her when she entered the school.

The question is asked of each applicant for admission to the School, whether they "are free from domestic responsibility, so that they are not liable to be called away during their three years' course of training."

No pupil would be received, who did not declare herself free to enter into a contract to remain uninterruptedly for three years, provided her conduct and service proved satisfactory.

It has become necessary to state explicitly (as is done in the Prospectus of the Training School page 116) that pupils are not to be called away from their hospital work during their years of training, to nurse relatives and friends who are sick at their homes. Leaves of absence are only granted for such purpose, in cases which the authorities of the School decide are of *extreme necessity*.

It has been found impracticable to maintain a registry for nurses in the present location of the Hospital. The addresses of the graduates who are engaged in private nursing are generally known to the doctors of the Staff. Many of them in this city are settled in groups, and can be found, when needed, at No. 154 West 54th Street, telephone, 659 38th Street; at No. 12 West 65th Street, telephone, 705 Columbus Avenue; at No. 33 West 63d Street, telephone, 328 Columbus Avenue; at 201 West 54th Street, telephone, 3427 38th Street.

The addresses of others living at their own homes can be found on application at the Hospital.

Dispensary expenses for the year, estimated	$3031.36
Board of three persons employed exclusively in the Dispensary	547.50
	$3578.86
Receipts for prescriptions and dressings	$2529.44
Net cost of this department	$1049.42

The Hospital has not yet organized its Ambulance Department. It owns two ambulances, but hires drivers and horses whenever patients are brought from their homes. The expense thus incurred, is reimbursed to the institution by a charge made for the use of these vehicles. The amount expended on this account the past year was $571; the amount received $509.82.

The total cost of food supplies for the year was $53,314.19.

Multiply the average daily number of inmates, 456, by 365, the number of days of the year, equals 166,440.

Divide $53,314.19 by 166,440, equals the daily cost *per capita* of food supplies for inmates, 32 cents plus.

Omitting interest on cost of buildings, the actual cost for board and living expenses of each inmate is estimated at 50 cents each per day.

The daily religious services have been maintained as heretofore.

In each ward of the Hospital a short service is held in the morning of each week day.

These services in the Children's Wards were for many years held by Mrs. Baker. During her prolonged illness, and since her death, Mrs. Freeman, the wife of the Chaplain, has undertaken this duty, and has shown special aptitude for it.

Evening Prayer, in which a special petition is always offered for the sick of the house, is held in the Chapel at 6 P. M. of each week day.

CLASSIFICATION AND COST OF SERVICE.

From the foregoing report it is seen that the total house expenses were		$155,386 23
Deduct cost of caring for patients in private rooms estimated at $3 per day, as follows:		
4,767 days' hospital treatment given patients in private rooms at $3 per day		14,301 00
		$141,085 23
From this amount it is right to make the following deductions:		
Amount received for special nursing	$2,437 78	
Amount received for articles sold	1,051 79	
Amount received for use of ambulances	509 82	
Amount received for orthopedic apparatus	132 75	
Amount received for board of patients' friends	1,469 32	
Amount received for medical service refunded to Hospital	40 00	
Amount received for periodicals	30 00	
Amount received for uniforms, paid by employees	130 00	
Amount received for funerals	225 25	
Amount received for telegrams and out of town telephones, refunded	205 59	
Amount received from Out-Patient Department	2,529 44	8,761 74
Net cost of 77,541 days' treatment of ward patients		$132,323 49

Divide this net cost of $132,323.49 by 77,541, the number of days' treatment of ward patients, it leaves $1.70½ plus as the *per capita per diem* cost of each ward patient.

On page 24 it will be seen that the total amount received for patients in private rooms for the year, was		$17,934 84
Deduct cost of 4,767 days' treatment of patients in private rooms at $3 each per day		14,301 00
Profit on private room service for the year		$3,633 84*
Net cost of 77,541 days' treatment of patients in wards		$132,323 49
Amount received from ward patients for the year		10,205 48
		$122,118 01
Add to this the amount of General Corporation expenses. See page 41		10,013 03
OUTLAY FOR CHARITABLE WORK, BY HOSPITAL, AND BY ITS PATRONS THROUGH THE HOSPITAL, FOR THE YEAR		$132,131 04

On the Lord's Day the Chapel is opened for public worship at 10:30 A. M., and at 4 o'clock P. M. At the morning services, besides the household, many who reside in the neighborhood of the Hospital are also worshippers. At the afternoon services, the Chapel is filled to overflowing with the friends of the patients.

Holy Communion is held in the Chapel on the first Sunday of each month, and also on all the principal feasts of the Church year.

* To this may be added the income of $30,000, received for endowment of two private rooms for the clergy.

A special Holy Communion service is held, for the benefit of the workers of the house, on the third Sunday of each month, at 6 o'clock a. m.

Provision is made that each communicant in the Hospital, although confined to his sick bed, can receive this Holy Sacrament at least once a month, by a series of Ward Communions in each ward, held on the different Sundays of the month. Careful preparation is made for these services, and they are believed to be most effective for good.

During the sojourn of the patients in the Hospital the Chaplain endeavors to see each patient, and to adapt his ministrations as far as possible to the spiritual needs of each individual.

The pastoral statistics for the year are as follows:

Baptized	30
Confirmed	66
Marriages	4
Funerals	129
Holy Communion:	
In Chapel	32 times
In Wards	91 "
In Extremis	43 "

On Hospital Sunday a delightful service of praise was held in the Chapel at which the choir of the Church of the Epiphany (thirty vested men and boys) were present.

During the Christmas festivities the Hospital was also visited by the vested choir of the Holy Trinity Church, Harlem, who sang their Christmas carols in each ward.

The Easter services of this year were distinguished by two beautiful gifts: One, a richly embroidered white altar cloth from a company of Christian ladies from the Church of Zion and St. Timothy, and the other, an abundant supply of lilies furnished for the service by a company of Hebrew young men.

The ladies of the Circle of the King's Daughters of the Church of Zion and St. Timothy, besides the two embroidered altar cloths presented by them to the Chapel, made a full supply of linen which completely furnished the Infants' Ward.

A special devotional service was held by them in the Chapel of the Hospital during the month of March.

The Hospital is also much indebted to the Employment Societies attached to various Churches of the city, as specified in the list of "articles received" for the large amount of sewing done by them yearly for the Hospital, free of charge, and to other friends for their many donations for the help of this work.

A special gift of $300, was made the past year by Miss Kate S.

Babcock, "in memory of Mary Putnam," a friendless girl, who for many years, and until she died, was a patient in this Hospital. This was spent for the purchase of orthopedic apparatus for children under treatment here, whose parents were too poor to pay for such appliances.

Mrs. J. Hooker Hamersley furnished all the patients of the Hospital with ice cream sixteen times during the last summer, which was much appreciated by them.

I must acknowledge myself especially touched by the gift of a Litany desk and book, and of two altar vases presented to the Chapel, by members of the household, in memory of Mrs. Baker, who for so many years, was the House Mother of this Hospital, and by the innumerable tributes of respect and affection which her death called forth.

Besides the above I received from the Haven's Relief Fund $200 which was added to a small balance on hand, out of which for the year to September 30, 1898, I dispensed $250.

I endeavored, with the assistance of a member of the Board of Managers, to create a special fund for the employment of a Kindergarten teacher for the Children's Wards, but with imperfect success.

These children often remain with us for many months, and some for years; a large proportion of them are under treatment for orthopedic diseases. During this period, their secular education is suspended, and they often grow weary of the monotony and uneventfulness of their lives.

A teacher who could combine amusement with instruction would accomplish a good work in their behalf.

Such a teacher was employed, as long as the fund contributed lasted, during a portion of the last year, with good result.

We have given above in statistical tables a brief outline of the work of the year.

What a story these tables reveal of individual suffering, and of the daily work accomplished for its relief! How far-reaching are its results!

But this large service is only possible by untiring, united and loyal effort on the part of all concerned. Acquainted as I am with the almost unlimited attention necessary to properly care for so large a household of invalids, and to intelligently administer to their various needs, I am profoundly thankful for the self-forgetful helpfulness, and often the heroic devotion to duty, shown by the workers of the different departments.

It is given to them practically to manifest the charitable principles of the Hospital to the patients, by the spirit in which they do their daily tasks.

The many words of appreciation of these personal services which I hear from the patients and their friends, fills my heart with gratitude for the past, and with courage for the future.

GEORGE S. BAKER,
Pastor and Superintendent.

The Death Rate from all causes for the year has been 12.6 per cent.

Excluding cases in the Consumptive Wards, the Death Rate would be 9.1 per cent.

PATHOLOGIST'S REPORT.

NUMBER OF CASES OF TUMORS.

Carcinoma	7
Sarcoma	1
Lympho-sarcoma	1
Adenomata	3

Number of cases in which there was some evidence of tuberculosis was 43, or 37 per cent. of the total. This large proportion is due, however, to the fact that in these are included 32 cases dying from chronic phthisis so that the actual number of autopsies in which tubercular changes were found, though not the actual cause of death, is reduced to 11 or less than 10 per cent. of the whole number.

The organs from some 30 cases were used at the College of Physicians and Surgeons for the purpose of demonstrating the gross pathological changes to the students of the various classes.

The number of specimens received for diagnosis from the Surgical Division of the Hospital was considerable, 348 being examined in less than a year. These can be tabulated as follows :

MATERIAL RECEIVED FROM THE SURGICAL DIVISION FOR EXAMINATION.

Cultures were made in the following cases :—

PROSPECTUS OF THE ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES.

The Board of Managers of St. Luke's Hospital, New York, are prepared to give a three years' course of training to women desirous of becoming professional nurses.

As St. Luke's is distinctively a Church Hospital, and managed by members of the Protestant Episcopal Church, it is essential that all of its workers should be in sympathy with its Christian character.

This announcement is made that there may be no misunderstanding on the part of applicants for the benefits of the Training School for Nurses, as preference will be given to those who are in full accord with the rules, methods and work established in this Hospital.

Those wishing to receive the course of instruction offered here must apply either in person, or through the printed "form of application" to the Pastor and Superintendent of the Hospital.

The following information is furnished to candidates desiring admission to the Training School:

Candidates must be from twenty-three to thirty-three years of age. They must be in sound health, and must send, with their application, a certificate from a physician testifying to this fact; certificates from one or more responsible persons as to their character; and a letter from their Pastor. These certificates may be addressed "To whom it may concern," but the original certificates (and not copies) must be forwarded, with a letter in the handwriting of the applicant.

A limited number only can be received. The rejection, therefore, of a candidate is no reflection upon the individual's character, neither does it prove her to be disqualified for the work of nursing in other places. The reasons for rejection are not given, neither are letters addressed personally to the authorities of the School returned.

Candidates for probation are not received in classes, but individually, as the work of the Hospital requires. Classes are formed at the convenience of the School.

The names of accepted candidates are placed in order on a "waiting list," to be called for duty as the needs of the Hospital require.

When called, they are expected to report promptly and to bring with them the means of returning to their homes, should they not successfully pass the probationary term.

Accepted candidates, while waiting to be called into the School, would do well to prepare themselves for their class work by studying Anatomy and Physiology. The class book used in St. Luke's Training School is Kimber's "Anatomy and Physiology for Nurses."

Any change of plan or of address on the part of a candidate whose name is on the waiting list should be immediately reported to the authorities of the School.

When probationers come to the Hospital they should bring with them the following articles: Boots fitted to support the arch, and at least one inch longer than the foot; three dresses (gingham or calico); six large white aprons (bleached cotton), plainly made; a good supply of plain underclothing; two bags for soiled clothes; one pair of scissors and a pin ball. Each article of clothing must be indelibly marked with the owner's name.

If the teeth are out of order they must receive attention before coming for the probationary term.

Probationers are boarded, lodged, and have their laundry work done at the Hospital. They receive no other compensation. Twenty-four pieces are allowed for the laundry each week.

Each probationer who passes successfully through two months of trial will then be admitted to the School, and will go on at once with the prescribed course of training.

Pupil-nurses at the time of admission to the School are required to sign a written agreement to remain in the School for three years and to conform to the rules.

The Pastor and Superintendent of the Hospitul has charge of the Training School, assisted by the Directress of Nurses. The nurses are subject to the rules of the institution. Their fitness for the work, and the propriety of retaining or dismissing them at the end of their probation, are determined by the Pastor and Superintendent, who can, in like manner, dismiss them at any time in case of misconduct or inefficiency. The nurses reside in the Hospital and serve as assistants in its wards.

All nurses are required to be sober, honest, truthful, trustworthy, punctual, quiet, orderly, cleanly, neat, patient, kind, cheerful, and obedient to rules.

Hours of duty are from 7 A. M. to 7:30 P. M., for day staff; 7:30 P. M. to 7 A. M. for night staff. Leisure hours: Two hours daily. One afternoon from 2 to 7:30 P. M. Sunday, four hours. These hours are subject to the requirements of the work. Nurses may be called upon for day or night duty, or for care of private patients in the Hospital, as may be necessary.

Pupils are required to wear the Training School uniform while on duty after they join the School. Material for dresses will be sold at cost price; cap material is furnished free of charge.

Three weeks' vacation is allowed each year. Pupils cannot be spared during their course of instruction to nurse sick relatives at home, or to absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If for *any* reason they are called away for a period extending over three weeks, pupils lose their class position in the School. If pupils are sick they are cared for in the wards of the Hospital, but the monthly allowance is stopped.

Head nurses of wards will be chosen during the last year of the pupil's course. Their selection will depend on special fitness shown in previous work. A badge will be worn to distinguish these from other pupils, and mention will be made in the diplomas of those who serve as head nurses satisfactorily.

The instruction is given mainly by the Directress of Nurses and by the head nurses of the wards. Lectures by physicians and surgeons, and recitations, take place at stated periods. Examinations by a Committee of the Medical Board, chiefly upon practical points, are held about January 1st, April 1st and July 1st of each year.

The religious services of the Hospital are according to the rites of the Protestant Episcopal Church, and the pupils of the School are expected to attend these services regularly. A special course of religious instruction is given each term by the Pastor and Superintendent.

COURSE OF TRAINING.

The Instruction includes:

1. The dressing of blisters and burns, applying fomentations, poultices, etc.
2. Cupping, leeching, and subsequent treatment.
3. The administering of enemata and use of female catheter.
4. Management of helpless patients; moving, changing bed and

body linen, giving baths, preventing and dressing bed-sores, and feeding.

5. Aseptic and Antiseptic treatment of wounds.

6. Bandaging, making bandages, covering splints, etc.

7. Cooking, preparing and serving appropriate food and delicacies for the sick.

8. Massage.

9. Emergencies, and how to meet them.

Instruction is given in ventilation and in the proper care of sick-rooms and utensils. Also in accurate observation of the sick in regard to the state of excretions, expectorations, pulse, temperature, respiration, action of the skin, eruptions, sleep, mental condition, condition of wounds, appetite, effect of diet, stimulants, medicines, and management of convalescents.

Opportunity is giveu for training in obstetrical nursing at the "Sloane Maternity Hospital."

The pupils are employed as assistant nurses in the wards of the Hospital, and they receive ten dollars ($10) per month during their whole course for personal expenses. It is considered that the education given during the course is a full equivalent for services rendered.

The uniforms belong to the School, and are to be returned in case the pupil leaves during her course of instruction.

When the full term of three years is completed, and the pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor.

The right is reserved by the Pastor and Superintendent to terminate the connection of any nurse or pupil with the School for reasons which may be deemed sufficient.

GEORGE S. BAKER,
Pastor and Superintendent.

St. Luke's Hospital,
New York.

ADMISSION OF PATIENTS.

DISEASES TREATED.

All kinds of *acute, curable and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but (with the exception of the "House of Rest for Consumptives" patients) not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious disease, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity and venereal disease.

MODE OF APPLYING.

Applicants received in person daily (except Sunday) from 10 A. M. to 5 P. M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications from *out of the city* should be made in writing to the Pastor and Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition and symptoms. It should state whether bed in general ward or private room is desired. If latter, at what price and on which of hereinafter-named conditions.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

RATES OF BOARD.

GENERAL WARDS.

Board of patients in general wards per week is $10.50 for adults and $6 for children (under twelve years of age), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patient's discharge.

Applicants applying for FREE treatment in whole or in part must be suitably certified as unable to pay Hospital rates and as worthy objects of charity.

PRIVATE ROOMS.

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue to support increasing charity work of general wards.

PRICES OF PRIVATE ROOMS.

Single Rooms from $3 to $6 per day, which does not include Attending Physicians or Surgeons fees.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patients's discharge.

The Superintendant is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Laundry work for private patients done at their expense outside the Hospital.

Diet regulated by physicians' orders, and meals served at regular hours.

AS TO FEES.

No Officer, Nurse or Servant is allowed to receive any fee or gift from a patient.

PROFESSIONAL SERVICES OF PHYSICIANS AND SURGEONS.

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions:

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect or receive such fee from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the Attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional

fees with those patients whom they recommend to the Hospital authorities for their private treatment *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own Staff from a misuse of their charitable services by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff whom they may select that the above arrangements may be made.

4. The Physicians and Surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee, only to those, who are unable to pay it, besides paying the Hospital rate for board and nursing.

5. Copies of these rules may be shown at discretion to applicants for private rooms, that they, before admission, may designate in which of these ways their means allow them to avail themselves of the privileges of the Hospital.

RULES FOR PATIENTS.

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readines to oblige one another and to assist in such becoming services in the wards as their health enables them to perform, remembering that they have voluntarily came into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments, and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctor's regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the Office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Pastor and Superintendent.

3. All wines, spiritous liquors, medicines, fruits, food or delicacies of any kind, excepting those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorites, are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers and packages are allowed in the wards as are approved by the Pastor and Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other vendors not allowed in the buildings.

4. No patient may purchase, or procure any member of the household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere except in their spittoons, or to use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in the wards to retire to their beds is 9 P. M.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. Wheu a patient desires the visit of a clergyman, not in the house, he must signify the same to the Pastor and Superintendent, who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

REGULATIONS FOR VISITORS.

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 and 12 A. M. and 1 and 5 P. M. Ushers will be in attendance to show visitors over the buildings.

2. The friends of patients are admitted to the general wards from ten to twelve o'clock on Tuesdays, Thursdays and Saturdays.

3. Women visitors, unless near relatives, are not admitted into the Men's Wards, nor men visitors into the Women's Wards.

4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.

5. The cards of visitors to the private patients will be taken to their rooms, under restrictions imposed by the Attending Doctor, daily (except Sunday), from 10 A. M. to 1 P. M.; from 3 to 5 and from 7 to 8 P. M.; on Sundays from 2 to 3:30 P. M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 10 P. M.

6. Sunday is not a visiting day in this Hospital. To accommodate the relatives of the patients in the wards who find it impossible to call on the visiting days, those who attend the Chapel services will be allowed, at the conclusion of public worship, to remain in the wards for a short time. These Chapel services are held at 4 P. M.

7. In cases of extreme sickness special passes will be granted to the immediate relatives of the sick patient.

8. No fruit, liquors or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the Office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.
